Fire and Dynamite Used to Obliterate Some of the Work of the Flood.

Gen. Hastings has 3,000 workmen on the scene and says he wants no more. He believes that by to-morrow night the gorge will be almost entirely disentangled and the little river will find its natural outlet.

Fire is consuming much of the mountain composed of the homes of Johnstown and their belongings, and but few bodies are being found, though there is a stifling odor from the burning debris, in which there are the bodies of horses and other animals.

A proclamation from Gov. Beaver urges that contribtors for the relief fund stipulate that their contributions be used in the erection of temporary rough board shanties and ten's for business men to resume their business in, saying that it would tend more than anything else to put courage into Johnstown. He has no right to use the \$1,000.000 loan for

this purpose.

A Western town offered several days ago to send twenty-five carloads of lumber for this purpose, and the offer has been accepted by purpose, and the offer has been accepted by telegraph. Other gifts of lumber are suggested by the Governor, and the Committee will devote its energies to the erection of rude board shelters for the people whose homes have been destroyed. Lumber is arriving from all directious for this purpose.

Nothing permanent can be done until the city and boroughs have reorganized their local governments, and a movement is now on foot to consolidate Johnstown, Cambria, Stony Creek and the other outlying boroughs.

WHERE THOUSANDS OF OUR POOR PEOPLE ENJOY THEMSELVES.

Commissioner Gilroy has made a requisition for 100 printed placards to be hung up in the fifteen free barns of this city. The meeting of the Board of City Record was a of these placards was to warn all males above sixteen years of sge that they could not enjoy the privilege of the free baths unless they girded their loins with trunks.

Mayor Grant thought that this rule would He Did Not Pay Blackmail and Fordebar many poor men and boys from the baths, as they could not afford to pay for the tights. As a result of this opposition of the Mayor the requisition was laid over.

The Mayor's objection seemed more specious than cogent. Why could not the city supply simple swimming trunks which could

supply simple swimming trunks which could be rented to the bathers for a cent or two until the cost would be defrayed?

The idea that a trivial ax like this would keep any one from the bath who wanted it is absurd, when one reflects that boys under sixteen are not subject to it.

Hundreds of hot, dirty little Modocs hover around the big square baths and sizzle under the sun's fiery touch waiting feverishly for the glad day when they can rush in, strip off their fragmentary apparel and plunge like like water rats into the cool salt water.

What fun they do have! Their thin scraggy little frames dart through the green liquid like young fish. They scramble up the steps, dive, bob up with their small round heads glistening like seals, tumble about like porpoises turn somersaults in the

round heads glistening like seals, tumble about like porpoises turn somersaults in the air, cling to the side like barnacles, and then go through it all again.

What an immense time they do have, and how regretfully they leave the seductive element when the beil rings them out. They tail off to get into their shirts and patched breeches and go out a triffe blue about the gills and their diminutive noses as red as populses.

But they are cool, comfortable and clean

But they are cool, comfortable and clean, and they have been happy for half an hour, which is a big average of happiness for the twenty-four hours of any human day.

The baths have been all furbished up and, although they can't be called handsome, they are neat and suitable to their purpose.

Three new baths have been added this year. The new bath at the foot of Market street on the East River is larger by twenty feet than any of the others. It is 110 feet long and 45 feet wide.

There are from sixty to seventy dressing-

feet than any of the others. It is 110 feet long and 45 feet wide.

There are from sixty to seventy dressing-rooms in most of the baths. The bathers are allowed a little over twenty minutes in the water and then they are turned out, and the mob that has gathered round the gangway rushes in, screaming and hustling, in a wild scurry to get into the brine just as soon as possible. There is not the same feverish anxiety to leave it.

Monday, Wednesday and Saturday of each week are "Ladies" Days." Two female attendants are on duty, and the three unale attendants retire from the scene.

The girls and women are as eager as their brothers, husbands and father to take a cool, wholesome plunge. They giggle more, scream more and swim less than the maie contingent, but they get there just the same, and come out cooler and cleaner than they go in.

and come out cooler and cleaner than they go in.

The baths are open every day of the week, except Sunday, from 5 o'clock, A. M. until 9 o'clock, P. M. So that on a hot, sultry day, a workman who has been sleeping amid the close, torrid air of a Cherry street tenementhouse, 1 p of by the reeking minasma that exhales from the streets and passage ways and courts, can rise at 5.30 and go for a cool plungs before beginning his day's work.

courts, can rise at 5.30 and go for a cool plunge before beginning his day's work.

Then at it's close, when he is sweaty, grimy and with a generally unpleasant sense of sticky clothes about him, he can take another refreshing dip and go home cool.

Isn't this a good scheme?

And what if it does cost the city \$33,000, as it did last year, to keep the baths? There were three million baths taken. Where is the taxnayer who would grudge the expenditure of one mill for twenty minutes' refreshment, health and pleasure for a poor, tired workman or a puny, hot little Modoc? Let us hope that he can't be found.

But, Commissioner Gilroy, push that business of the swimming-tights. You are right.

Augustino Cannavaccino has in the Tombs prison, accused of a heinous offense. Yet he has not the least idea of what the charge is against him.

He is a Neapotitan of middle age, and bas been in America only about a year. He came to the land of liberty and equal rights because his brother, who had come to America with his wife and four little children had died and left the helpless family with no one to care for them.

Augostino bravely assumed the burden, like Victor Hugo's Jean Valjean. His experience in America has been of

and from others of his fellow-countrymen that this was a land of promise. That there was a living to be earned here, and that was better than could be said of his overcrowded And so he came to the relief of his little

kinsmen.

He had a little money, and his first efforts
to find work which would be near to the little
family which he had adorted proving futile
he cast about him for a suitable place to plant
a stand for the sale of fruit, and found such a place under the awning of the drug store of Anton Appelmann, at the corner of Tenth avenue and Sixtleth street. There was a fruit stand within the stoop

line at Fifty eighth and Sixty-first streets—indeed, at every corner along Tenth avenue, but Augostino, nothing daunted by this, applied to Mr. Applemann for permission to erect the booth at the corner. erect the booth at the corner.

Druggist Applemann is a practical man, and a man of kindly heart. He replied to the applicant that the police permitted a gang of loafers to congregate before his windows and under his awning despite his protests, and he would rather have a well ordered fruit stand there than to be annoyed by the crowd of loungers who insulted passers-by, bestrewed the walk with tobaccouries and were a nuisance generally.

uice and were a nuisance generally. And so Augostino prepared for business.
He applied to the City Marshal for a permit to erect a stand, and pending the granting of the permit, by advice of Mr. Appleman, proceeded to erect his stand.

It was a modest stand, but well laden with fruit

Augostino was cleanly, industrious, and a gentle fellow, and soon began to get his fair share of trade in bananas, oranges, peanuts and other truck.

The widow and her orphans were cared for and the simple Neapolitan was happy as a

king. But his prosperity did not last long. Some body seemed to accumulate a grudge against him, and one night last Winter, almos under the noses of a roundsman and a pratrolman from the Twenty-second Precinct, his stand was upset in the street and more than \$100 worth of fruit destroyed.

Nobody had the slightest ides who did this

Loafers gathered and bothered him, and finally, on Thursday, an officer from the Bureau of Incumbrances appeared on the scene with a note in his hand which he showed to Mr. Applemann.

It was a complaint stating that the fruit stand was a nuisance: that Augostino was selling decayed fruit and the odor was unhealthy. The coward who thus complained had not the courage to sign his name. His complaint was anonymous.

Mr. Appelmann pointed out the absurdity of the complaints; that the vender could not sell decayed fruit, but the officer found that Augostino had never gone after his permit. Loafers gathered and bothered him,

Augostino had never gone after his permit, and then he dumped the fruit from the stand and lugged the structure away.

Poor Augostino aidn't understand what had struck him, and getting two boards he improvised a temporary stand; but even while he was at work Officer Cusick, of the Forty-seventh street station, on pairol there, arrosted him and lugged him away to the Yorkville Court, where, half-dazed with fright and not understanding the words of the Court, he made no answer to the charge of erecting a stand without a permit, in vio hation of the ordinances.

He was held in \$100 bail for trial and hurried off to the Tombs, where he now is, while \$200 worth of fruit, all the property he has, is rotting in the basement area of the drug

The little family whose sole support he was, knew nothing all day Thursday and yesterday of the trouble that had befallen their hero, and when they learned last evening, their mourning was pitiful. They are almost penniless and without means of support.

But the majes v of the law is vindicated. Druggist Appelmann is indignant. He says Augostino is a good man, temperate and orderly. That there are stands all about him, and that Augostino's arrest is an outrage. He ventered the opinion that Augostino ought to have paid blackmail to somebody. was a first rate man, and that he was the victim of the jealousy of other fruit dealers and had been for a long time, but he did not think there was any blackmailing of stand

Sergt. Dunn Says We Will Have a Shower To-Day.

There is a Slight Breeze Blowing, Bu It Is Scarcely Felt.

Old Humidity never dares to more than peep in at Sergeant Dunn's cool quarters at the top of the Equitable Building. Even a hot wave cools off a little before it approaches that favored eyry. Sergeant Dunn supplies all the warmth that is needed, and it is of a very comfortable style of caloric which

doesn't affect your shirt-collars. He rehearsed his more "twice-told tale" this morning for the benefit of THE EVENING World young man.

"The temperature this morning in New York at 7.30 o'clock was 72 degrees. It's going to be hot to-day, and there will be a shower late this afternoon owing to the un-

equal distribution of temperature.

"When the atmosphere is nice and steady the humidity has to score a hundred points before it rains. A few days ago the humidity was 97 degrees and it didn't rain, though it dewed a good deal.

"The wind is only a ten-mile breeze, and that doesn't count." continued the Serrant.

Want some more temperature?" asked the Sergeant, pleasantly, studying his vermition streaked weather map. "Well, there's Denver, 54 degrees; San Francisco, 56 degrees; Alpina, Mich., 60 degrees; St. Psul, Minn., and Northfield, Vt., 62 degrees. Chicago, 66 degrees: Knoxville, Tenn., 68 degrees: St. Louis, 70 degrees and New Orleans, 76 degrees. leans. 76 degrees.

"The humidity at 8 o'clock this morning was 88 degrees. That's a good starter and is pretty high for humidity.

"To-morrow the weather will be fair and

warm."

When July begins Sergt. Dunn will be allowed to indulge in local horoscopes, which may vary slightly from the Washington forecast. This is a comfort for the good Sergeant. It used to pinch him on his weather side to have to predict rain when the local indications dien't say rain.

After July 1 Sergt. Dunn will take a proud meteorological stand of his own, and not be in thrall to the Capital.

The closer the weather forecast the better.

ALARM FOR MRS. HANSEN.

SHE LEFT HER BAPIES AND WROTE THAT

SHE WOULD NOT LIVE LONG. Her Husband-She Kept the Cash at His Stand in Wallabout Market and Thought He Doubted Her Honesty-Her Three

Babes Without a Mother. Mrs. Lizzie Hansen, the pretty wife of Restaurant-keeper Jacob Hansen, of Brooklyn, is missing and it is feared that she may have committed suicide.

Mr. Hansen has long kept in Wallabout Market, a restaurant, which is a resort for market men, and lives at 12 Hall street.

old, was the cashier. She was very pleasant

and pretty and was popular with the market-She attended to her duties with care and fidelity. Her husband and she lived happily together and had three beautiful children. Mr. Hansen rather hastily said said and she Mr. Hansen rather hastily said a few to his wife on Thursday about her careless in permitting any one else to have charge of the cash drawer. She misunderstood him to say something reflecting upon her honesty, and, being very sensitive, took the words to heart. That afternoon she left the restaurant, telling one

of the waiter girls that she would be back in an hour.

She went to her home, kissed her three children, then sat down and wrote a farewell note. She put the note in a trunk, kissed the children again, and left the house. She has never been seen since.

It was an hour after she left the restaurant that Mr. Hansen arrived there and inquired for her. A waiter girl said that Mrs. Hansen had gone out for a ride on the open street car, and would be back soon.

WHILE TRYING TO DEFEND HER DAM. Mrs. Hawthern Says Lumberman Fleming

Assunited Her and Sues for \$10,000. ISPECIAL TO THE EVENING WORLD. ! Banoos, Me., June 15.—A suit for \$10,000 damages has been brought here by Mrs. G. H. Hawthern against J. G. Fleming, both of Chester, for assault, and the case will come before Supreme Judicial Court at the October the Supreme Judicial Court at the October term. This is one of three suits that will be brought against Fleming.

It seems that Hawthorn owns a pond on his land, the water being retained by a dam across a brook, and Fleming is a lumberman, who operates in that locality. Some trouble arose between the parties about letting out the water by the gater, and a few days ago Fleming had a drive of logs and, with one of his men, began tearing up the dam.

Mrs. Hawthorn and her son went out and objected, when she was struck in the side, slapped in the face and otherwise assaulted by Fleming. Mr. Melville is not an irishman, and has nothing whatever to do with the Clan-na-

Oldgrudge-The doctor says I am about to die and I send for you that we who have been bitterest enemies all these years might receive each other's forgiveness. Makepeace—I most truly forgive you in everything. And I forgive you if I die, but remember, if I recover, the fight will be taken up just where we now drop it.

Terrible Calamity in a Market Building Fall.

Eight Bodies Taken from the Ruins So Far.

Mexican Troops at Work Trying to Rescue the Injured.

[BY CABLE TO THE PRESS NEWS ASSOCIATION.] CITY OF MEXICO, June 15. - The roof of the market fell in to-day while the building was crowded with dealers and customers. Hundreds were caught in the ruins and are

still buried there. Many were instantly erashed to death The troops have been called out and have set to work digging out the dead and rescuing the living. So far eight corpses have been taken from

the ruins and fourteen wounded persons have been recovered. Many more are missing. Not more than a third of the ruins has been explored. The market is surrounded by a frantic

crowd. The scenes of the distress are heart-

rending.

BETRAYED HIS TRUST. New Milford Post-Office Is Now in Posses

aion of An Inspector. IFFECIAL TO THE EVENING WORLD. Bridgerout, Conn., June 15.—Post-Office Inspector J. D. Hall has taken possession of the post-office at New Milford. Conv. The accounts

post-office at New Milford, Conp. The accounts are in a very bad condition. The Postmaster has been dismissed and the office is in charge of his bondsmen.

No weekly reports have been made for over three months and the quarterly report of stamps and envelopes sold since Jan. I has not been sent to Washington.

A young lady employed in the office found \$700 in the waste-basket and over \$1,500 was found at the house of the Postmaster. It was deposited in the bank by the Inspector.

A new Postmaster will be commissioned at once.

The appointment was made by ex-President Cleveland.

YACHT RACE. ISPECIAL TO THE EVENING WORLD! FORT HAMILTON, L. I., June 15.—The Sea-wanhaka Corinthians are perhaps the lucklest rachting organization around these waters. They always have a breeze of wind to sail their regattas, and an attractive card makes their

races interesting. To-day was no exception to the rule. A very interesting programme was arranged, and a 'smoky son'wester" wind sent the fleet race

interesting programme was arranged, and a "smoky son wester" wind sent the fleet racers sent the fleet racers deshing across the line with lee rails buried in the water.

Perhaps old Boreas sends them this kind of weather, especially to test the nerve and seamaship of the amateur tars, for in these races amateurs must handle the stick and take care of the sheets.

The Seawanhaka's races are always looked forward to with cager anxiety by yachtsmen, for it is deemed a special honor for an amateur crew to bring in the winning yacht.

The class of seventy-footers less some of its interest to-day on account of Mr. Oliver Julius's Saucy Titiana being withdrawn. She parted her bobstay just as she went across the line in the New York race on Thursday and has gone on the ways for repairs.

While she is there she will be made as smooth as sandpaper can make her for her matches with Katrina next week.

Following is a list of entries:

Schooners.—Ninety-foot Class—Mayflower, Graylius, 55.06: Sea For, 91.43.

Sieges and Cutters.—Seventy-foot Class—Bedouin, 73.15; Fannie, Graces, 73.41. Shamrock, 73.73.

Sixty-one toot Class—Reamer, 53.72; Clara, 54.90.

Ferty foot Class—Kanzaron, 31.50; Saracep, Elf, 36.00. Kathleen, Tom Bey, 42.20.

The start was off buoy 18, opposite Owl's Head. They will sail the same course as the New York Yacht Club. the larger boats going to Sandy Hook Lightship and the sameler ones to Seotland Lightship.

The last two classos, however, will only go to buoy 5, off the pitch of the Hook, and return.

A New York Girl's Sanity Questioned.

ISPECIAL TO THE EVENING WORLD.]
BRIDGEPORT. Conn., June 15.—Miss Annie McCormick, of New York, is being examined here to-day, as to her samity, before a committee at the Court-House. Miss McCormick was committed to the Middletown Insane Asylum last mitted to the alignetown insane asymm assister, as a certificate signed by Dr. Bunnell, of this city. Nancy McCornnick, a sister, was the instigator of Annie's commitment. The latter escaped by impoing from a window last March, Rev.
